FRANCE AND BRAZIL.

The Great Powers of Europe have ere this shown to the world their powers of absorption; it is a species of appetite for land that relishes annexation. New Guinea and Madagascar, British and French Guyana, Tonkin and Tunis expeditions, shew that the big are absorbing the small. France is at present engaged in several expeditions, which will probably result in territorial aggrandizement. South Americans do well to watch the course of events. The United States in the North, is broaching a policy of absorption in Mexico, and ere long American capital, brains and energy will turn that Latin-Indian republic into a prosperous adjunct of the Union. It is idle to think that the onward movement of absorption will stop there, since the small Central American republic will quickly fall into the incorporation.

Frenchmen, meantime, have begun to ventilate a most agreeable question, one likely to tickle all the appetites of the Gauls. A French Vice-Consul made a trip up the Amazon, had occasion to admire the immense wealth of the territory around, and has seized the opportunity of informing his countrymen of the great future of a country, in the hands of savages as yet, and only awaiting the advent of civilized individuals to yield enormous wealth. It is the "El Dorado" resuscitated, and Vice-Consul Wiener, like his colleague in Madagascar, is the instrument of an enterprising foreign policy.

The Parisian journals have begun discussing French prospects in South America. French Guyana is altogether too small for the purpose, and French editors think that much could be done on this "virgin continent"; the latter expression may mislead our readers, since there is not the slightest reference to Patagonia, the latest geological embryo. All the remarks of the French papers are made with regard to the territory bathed by the Amazon and its innumerable and immense affluents.

M. Henri Deloncle, a prominent authority in geographical circles within the limits of the Departement de la Seine, has discovered that France possesses traditional rights on the mouth and part of the Amazon. The treaty signed in Utrecht in 1713 has been disinterred for the purpose and it is found that according to Art. 8 therein, with regard to settlements between France and Portugal, the limits of French Guyana are fixed on the Yapoc or Vicente Pincon river. A very melancholy misinterpretation of the word Yapoc led to a deplorable mistake and the French Government unluckily allowed the limits of its Guyana to be fixed on the Oyapoc.

As long as this controversy was limited to geographical club-rooms and to the columns of the Parisian journals little importance could be attached to it, but it appears that the French Government has taken the matter in hand and intends putting forth its claims to the Imperial Government. The question has emerged from its entertaining stage and has now entered a serious phase.

Brazilians will very naturally laugh at the pretentions of French editors and geographists, but the claims of the French Government, after experiences at Tunis and Madagascar, will stagger them. Claims from such very unexpected quarters will prove more than a disagreeable surprise, and will evidence the great aspirations of European nations now-a-days to secure foot-holdings all over the world in the shape of annexation. A policy of this nature may succeed with the natives of the Indian Ocean, or with the nomads of the North of Africa, but with Brazil it is quite out of the question,

Foreign pretentions on this continent are viewed with a very malignant eye, with a jealousy of excessive bitterness and enhanced by the individual conviction of weakness. Small nations are more jealous of their rights than great ones; limit questions between neighbours and domestic grievances are settled with much acrimony in South America. Paraguay was annihilated and Peru has been ruined. South Americans do not mind this half as much as any attempted European interference. Any intention on the part of Europe or of the United States is the signal for a general out-cry, and France may be prepared for a concert of a very discordant nature should she attempt to assume any agressive or importunate tone in her pretensions on the mouth of the Amazon.

The future of these countries depends on the bone and sinew that pour in from Europe; the emigrant is most acceptable and all South American nations strive to attract the surplus population of the Old World, but they have a determined objection to any political emigration. As long as the the great Powers limited their powers of absorption to Africa, Asia and islands of the Pacific, people on this continent looked on with feelings of tranquillity, but the present movement looks very like the precursor of other encroachments and the famous Munroe doctrine steps in between Americans and Europeans. The theory of America for the Americans is a magnificent axiom; its success as an indisputable theory depends on the strength that can support it against the power of intruding nations. A storm may be brewing in a tea-pot in this Amazon difficulty, but it may also assume the proportions of a cyclone.

INTERESTING STATISTICS.

London, May 17th.

The new loan for Belgium has been a great success. It was for £6,400,000 in 4 per cents at 101½, and on the day of issue the subscriptions in Brussels alone exceeded 100 millions sterling, or 16 times the total amount required. This loan will bring up the Belgian debt to 78 millions sterling, with an annual charge of £3,800,000; the latter averaging 14 shillings per head. Belgium has much to shew for her debt, the State railways standing for 30 millions, and the port improvements of Antwerp for 6½ millions sterling.

Absurd as it may appear, the mania for collecting postage-stamps has not died yet. Nor is it likely to do so while these collections have a regular money value. You can buy them from 6 pence up to £100 or even more. In 1881 a leading member of the English bar sold a collection for 200,000 francs, say £8,000. It reminds us of the times when a "Viceroy" tulip would fetch £2,000 at Amsterdam.

Every few years a peculiar fancy, sometimes in the form of a panic, seizes the English mind. Two years ago it was a gold famine, and now it is a plethora of unemployed capital. Some people say that as the railways of the world are nearly completed it will be difficult to find new fields for expenditure. They forget the old adage that money, like water, always finds its level. Among the new fields that are drawing off a huge amount of surplus English earnings the Southern and Western States of America are remarkable, especially Texas and Colorado. The impossibility of investing in Ireland adds to the plethora in England. If Great Britain could safely and profitably invest capital in Ireland we should not see such a stream of wealth from London going all the way to the Rocky Mountains. Meantime the unused water-power of Ireland, flowing idly to the sea, would suffice to turn all the factories in Belgium, which maintain over a million persons, big and little, in comfort. We want a financial Lesseps in G. Britain, who would devise a canal to connect the Mediterranean sea of English capital and the Red Sea of Irish labor and motive power.

The amount of new capital called up (not counting enterprises that fell still-born) in 3 years ending Dec. 1882 was 1,250 millions sterling, viz:—

	Millions.
Great Britain	182
France	301
Germany	38
Russia	107
Austria	75
Italy	40
Spain	36
U. States	210

the rest being made up of smaller items.

This shews an average of 420 millions fresh capital yearly, which is hardly one-fourth of the increase of wealth in all nations. Great Britain during the 10 years ending 1880 accumulated 1,540 millions, or 154 millions per annum, which is very little short of half-a-million daily. Bricks and mortar add 62 millions a year in house-property to Great Britain, and each new house takes 50 per cent of its value in furniture. Thus the domestic improvement of the people absorbs half the surplus earnings.

From recent statements it is shewn that the sum spent in London on theatres is little below the average p. head in Paris, viz:—

London £1,320,000 = 7/ p. inh.
Paris.. 840,000 = 8/ p. inh.

Of course it is true that the wealth of London is so much greater per inhabitant that relatively the English spend much less of their income than the French in theatres. In our theatres the actors take 55 per cent of the gross income:—Paris the ratio is not stated.

LONDON LETTER.

(From our own Correspondent.)

London, May 19th.

To-morrow being Sunday, the present mail leaves some hours earlier, The close of Whitsun week produces little in the way of news. The execution of Curley took place yesterday morning. Like Brady, he seems to have died instantaneously without pain, and preserved to the last moment a fair amount of firmness. The newspaper accounts of these executions said to be from eye-witnesses, are so absurdly alike, and so strongly eulogistic in regard to Mr. Marwood's success, that one rather regrets the absence of the press and independent descriptions.

The work of collaring the Irish malefactors is going on briskly, thanks to Irish good nature, which will sooner or later blab. Seven men have been arrested for the attack on Mrs. Smythe, who, you will remember, was shot in her carriage some time ago on her way from church. The authorities, we are told, are very reticent, but are supposed to hold the complete clue to the whole ramification of the assassination clubs in Ireland.

The event of Whitsun week is decidedly the small panic on the Stock-Exchange, caused by the late heavy failures. The last one, succeeding that of Lewin Mozeley, is still more serious, as the firm Messrs. Turton and Co., show in their list of liabilities a clean £230,000 for differences in jobbing and speculation, and their assets are £5,000! about 7d. in the pound on their liabilities. These people have been held up by banks and discounting houses, and enjoyed a good credit. Their failure is a great blow to confidence. Many of us, in a small way, are accustomed to take the cheques of respectable stockbrokers for differences or results of sales of stock. They tell me the banks never think of doing so, and now private people insist on receiving cash. Mr. Turton has written a letter to the papers, exonerating from all blame in the speculation of the house his partner, Mr. Hadow, a gentleman of good family and renowned in the cricket field. As Messrs. Turton and Hadow were doing a large business and understood to be prosperous, the present fear is that other "prosperous firms" are in the same state of insolvency. Bankers, too, will be less ready to lend, and the difficulties of the coming settlement will be increased. Meantime, the last return of the Bank of England shows a great falling off in the reserves, and if nothing worse happens we may look forward to low prices in stocks and a greater stringency in money. The city article in the *Times* of this morning says—"Instead of continuing to sell one against the other, the firms who were saddled with North Staffordshire Stock, by the failure of Messrs. Turton and Hadow, have, as was anticipated, made arrangements for keeping it off the market, by forming a syndicate among themselves. The relations of the bankrupt firm having been almost entirely with good houses, the disaster is not expected to lead to any further serious trouble."

The report of the London-Platino Brazilian Telegraph Company pays another dividend of 3s. per share, leaving £6,121 to be carried forward, pending the collection of the debt due from the Uruguay Government.

The report of the Buenos Aires (New) Gas Company for 1882, to be presented at the general meeting, states that the income was £36,037 18s, to which is added £21,191 4s 2d, brought forward, making £57,229 2s. 9d. After providing debenture interest, deducting an *ad interim* dividend paid for the half-year, ending June last, and carrying £5,000 to the reserve fund (which will thus stand at £15,000) there remains a balance of £24,406 12s. 2d. out of which the directors recommend a dividend of 5 per cent. (making 8 per cent. for the year) and carrying forward £10,739 2s. 2d.

For a long time past the improvement in the prospects of Mexico has been a feature in the financial world. The Mexican Government is at present endeavouring to arrange with its British bondholders. A reopening of diplomatic relations between Mexico and Great Britain is also expected.

The only news of the day is the release of Mr. Carey, builder, informer and ex-town councillor of Dublin. Mrs. Carey, at her present residence, had a great rejoicing in honour of the event. The proceedings were a little marred by the appearance of Mrs. Curley, widow of Mr. Daniel Curley, recently deceased. The interview was very painful. Mr. Carey has no intention of leaving Dublin. It seems to be a rule of the "Invincibles" that whatever happens the members of the association are to stand to their ground. The Government, however, have offered to other informers protection and free passage to other parts.

It is said that the murderer of Mrs. Smyth is Fagan, already convicted of complicity in the Phoenix Park murders, which rather tends to prove the oneness of the conspiracy to murder in Ireland. This circumstance is a favourable sign, because a few desperate and ignorant men could easily band together and destroy the reputation of a whole nation. The worst feature in the case is the morbid sympathy with the assassins which is shown by the middle and lower classes in Ireland. This can fairly be attributed to a vague sense of injustice, added to gross ignorance; not that the injustice is not a fact, to some extent, but the lower Irish croon over it as a vague sentiment, without any practical views or determination to combine in practical remedies. It is this forlorn and feminine sentiment which breeds the violence that is only an effect of moral feebleness.

The news from Zululand is very serious, but is not yet well authenticated. There seems to be no doubt that Cetewayo has been badly defeated with a loss of 6,000 men. On the other hand, we hear of the death in battle of his opponent, Usibepu, and also of Oham. This latter intelligence is, by no means. confirmed. The restoration of Cetewayo seems to have been a mistake, and the annexation party in Natal are again rampant.

French troops are embarking to reinforce M. de Brazza in the Congo. Egyptian affairs are not going smoothly. M de Lesseps, however, has come to the conclusion that a second Canal must be made on the Egyptian side of the present one and in connection with the present system. He, therefore, proposes to take the question out of English hands, and raise money by new shares in the existing company to carry out the proposed works.

The pious world is much scandalised at the idea of the new Knight, Sir Arthur Seymour, celebrating his birthday on Sunday. He gave at his residence, Queen's Mansions, a "recherché" dinner for twelve, including the Prince of Wales, the Duke of Edinburgh, Lord Hartington and other patrons of wine, women and music. After dinner the telephone receivers were put in communication with the Savoy Theatre—not during the hours of Divine Service—and the guests enjoyed "Iolanthe" as much as could be done with the ears only. But, as Lord Hartington said, eyes and understandings were half the enjoyment at the Savoy. So they are at the Fisheries Exhibition, which I ran through yesterday. One—more than fair-haired—white-haired Swedish girl, five feet ten, robust and busted in proportion, was to tackle—most interesting as the tackle exhibition was—what music at the Savoy is to music by telephone. There was a horrid smell of ale and stout and second-class refreshments, which are the bane of our Exhibitions.

GENERAL OSBORN.

A VOTE OF THANKS.

A private letter from one of the many Argentines who are now travelling abroad tells us something for the public ear, which we already knew, but without details:—

During his recent flying visit to his native land the Minister availed himself of the opportunity to address his countrymen at Conferences in that familiar way in which Americans are in the habit of exchanging ideas. On his return from the Amazon Dr. Agassis gave a series of conferences in the Cooper Institute in New York, describing what he had accomplished and what he had seen on those 600 rivers which empty themselves into the ocean.

In a more modest way, General Osborn took occasion, on his return home, to make better known the country in which he resides, its progress, civilization and resources, thus dispelling the prejudices that still exist against those countries which are called South American. The private letter to which we have referred gives circumstances and contains reflections which enhance the interest of the intelligence.

"There exists here," the traveller says, "as much ignorance about our country as I found when travelling in Europe, perhaps even more. Although the trade between the United States and the Argentine Republic is larger than that with Chile, they look on Chile as a country more advanced than ours, and say so officially. 'Gauchos' and revolutions are all they affect to know about the Argentine Republic. An orator in the Chamber said to me the other day, "Well those countries are young ahead, but always in the old way—Revolutions? Eh?" "No Siree, we have now established order." "Indeed! What's your population in Buenos Aires now?" "300,000 souls." "I guess you mean in the whole Republic." "You bet I don't; I mean in the Capital alone." "By thunder!" I absolutely think that he was under the impression that I was deceiving him. The trip of the American Minister, General Osborn, *has done us a deal of service*, as he has spoken much of us and our country and dispelled many errors by his favourable reports of us. But even this is little when the task in hand is to remove deeply rooted prejudices and false impressions which all Spanish America has itself planted. The last Parliamentary document, signed by the Secretary of State, contains these words:—"The Chilian commercial statistics, published officially, can, in contents and clearness, be compared with those of the United States, France and England. The direct application of the practical principles of trade to national and international questions, which distinguishes the Chilian official reports from those of so many other South American States is a certain index of that spirit of progress which is destined to place Chile before all other South American nations as a commercial and industrial centre." Is the Minister unaware that, for the past ten years we have had statistics of our foreign trade quite as good and clear and comprehensive as those of Chile, but with this difference—that our production and export figures are almost double hers. I would advise our Government to send copies of these statistics to our Ministers and Consuls, and to the Government and Chambers, to open their eyes."

We for our part, would like to see sent with our trade report copies of our Codes, of the works of Gould, Burmeister, Ameghino and Moreno, and some of our historical works, to the Library of Congress, to Astor's Library in New York, and the Municipal Library of Boston, which contains 300,000 volumes.

The explanation of all this is very simple. The samples of South America which the North Americans have more or less near them and under their eye are Mexico, Venezuela, Central America etc., and we must confess that all the rest of America is very much like them. Chile began to emerge from the chaos fifty years ago (1833) and for many years past Europe and America have looked on her as the "Model Republic." We did not get our noses to the surface of the immense sea of disorder, ignorance, and backwardness in which the rest of South America remained plunged until the year 1860, when the Republic was finally reconstructed and railways were commenced. These railways were our last revolution, and, surely, they cannot be reproached with being South American! Our progress in wealth, industry and population places us in the front of this part of America, excepting Brazil. Our intelligence and education are behind none; and as for the future, our expanding institutions, geographical position, trade and immigration will enable us to surpass ourselves and Chile also, in a short time, if a retrogade reaction (already begun) do not paralyze our advance, or a war for boundaries or other cause entice us from the straight path.

We avail ourselves of this opportunity to thank General Osborn for his good offices towards our country in the United States, and would recommend our Finance Ministers to prepare comparative tables of the trade, production and imports of the several American states amongst themselves, so that the world can judge, by the figures, of the commercial and producing status of each state. It is sufficient to know that Mexico, with 11 millions of inhabitants, produces and consumes a half less than the Argentine Republic. Although there is not such a difference in the case of Chile, she is still inferior to us, and Brazil alone consumes and produces three times more than we do, while she has triple or quadruple our population and half the area of South America as a field of production.

Perhaps the Peruvian war, which attracted the attention of the U. States for a moment, owing to Chile's brusque refusal of her offers of mediation may have induced the North American Ministers to procure, or a Chilian Minister wishing to know what Chile is to lay before them, a commercial report, nicely got up in clear type, and they were surprised to find that it was the same as statistical reports all the world over, cut with the same scissors, stuck in the same pigeon-holes, and only different in the figures. We are convinced that we could get up a statistical table of trade imports etc so good that better or worse could not be produced.

But, let us keep cool and not get angry, and send to the Foreign Office or the Treasury of the United States our "Revista Comercial.' If not, we may pay dearly for our neglect.

What do we here know about Roumania or Herzegovina? We barely know Australia by name, although she is our rival in wool and has become richer and more civilized in a shorter time. A former Minister of ours in Washington endeavoured to secure the extension to the River Plate of the steam line to Rio, and Senator Summer supported him in the matter. When the matter came before the House it was decided to postpone it till the inter-oceanic railway reached California and thus settled the question!! The members of the Committee did not know, or care, in what part of South America Buenos Aires was, on the Pacific or the Atlantic!

As a proof of our high culture here, we may say with pride that the Argentine Republic knows more about the institutions and progress of the United States than Europe, more than Mexico, which is beside it, and more than all the rest of America. The works of the best American writers on Constitutional Law have been translated into Spanish here, and our Congresses are guided by their Parliamentary rules. Mr. Worthington a Minister who heard the debates in our Chambers, and Mr. Conkling who read them, both declared that the questions could not have been handled better in the United States.

These incidents have their consequences. In France a Minister once excused the errors of our Judges, owing to our defective Civil Code. Dr. Louis Varela was in France at the moment and begged an audience with the Minister, leaving the latter with his mouth open by laying our Commercial and Civil Codes before him, and proving to him that we did not require his compassion in this respect. Three years later the French Judicial Commission ordered the Argentine Codes to be translated, as the most advanced of the present day.

Let our Codes and Statistics be sent to the American Minister.

TheGavotti-Gomez case has been finally settled by the payment of £12,000 by the defendant to the plaintiff. The question is how much the latter will be able to save from the lawyers.

THE TERRIBLE RAILWAY ACCIDENT IN SCOTLAND.

EXTRAORDINARY ESCAPES.

One of the most disastrous railway accidents that has been known in Scotland for some time occurred shortly before midnight on Whit Monday, at Lockerbie Station, on the Caledonian Railway. A double collision took place, the first, though not very serious in its immediate effect, becoming the cause of a second and terrible catastrophe.

About eleven o'clock a goods train from Carlisle for Glasgow, which had been shunted, was resuming its journey northwards. It had just begun to move when the fast passenger train from Stranraer to the South ran into Lockerbie from the Stanraer and Dumfries branch, which at this point joins the main Caledonian line, and came into collision with the goods train then proceeding in the opposite direction. Neither train, however, was running at any speed, and this first collision, therefore, was unattended by loss of life. The trucks of the goods train were violently driven back southwards and most of them thrown off the metals, blocking both the up and down lines. Scarcely had the effect of the collision been realised when, to the horror of the officials, the whistle was heard of the mail from Edinburgh and Glasgow to the south, drawn by two powerful engines, and flying along at the rate of over sixty miles an hour. The mail dashed into the wreckage with a terrible crash. Near Lockerbie there is an incline sloping southwards, and the additional impetus thus acquired by the ill-fated train lent greater force to the shock. In the darkness it was at first unknown how awful was the calamity which had just occurred. As the eye, however, became accustomed to the gloom it could be seen by the dim light of the embers falling from the engine fires that the front portion of the mail train was a complete wreck. From the broken carriages piled on one another were heard shrieks of pain and cries for help. Those who had escaped at once set to work with the officials to extricate their less fortunate fellow-passengers.

It was found that the driver and fireman of the first engine of the mail train and four of the passengers had been killed on the spot, while some thirty persons were more or less injured. Telegrams were despatched to Carlisle and Glasgow, and a special train from the latter place arrived at four o'clock. It conveyed a number of doctors with surgical appliances, Mr. James Thompson, general manager of the Caledonian Railway, Mr. Kempt, general superintendent, and several other officials. The dead and injured having been got out, the latter were attended to. Those more seriously hurt were taken to hotels in the town, while those whose injuries were only slight were sent on to their homes.

The mail train left Edinburgh at 9.20 p.m., and on reaching Carstairs at 10.25 (ten minutes late), took up the other portion which leaves Glasgow at 9.15. The united train was made up of two powerful engines, a meat van, a brake van, a composite carriage and two sleeping saloons for London, a composite carriage for Manchester, and a composite and third-class for Liverpool. As it came rushing down the incline the speed was so terrific that an old railway servant remarked that the train would go over the embankment some day. When the collision with the overturned trucks of the goods train took place the first engine was pitched on to the wooded extension of the platform at Lockerbie Station, tearing it up for a distance of about thirty yards. Next it came in contact with the stone platform, doing similar damage, and sending the stones flying in all directions. At last, fearfully battered, it fell across the platform within a few feet of the footbridge. The tender was pushed on by the momentum of the second engine and the other vehicles for nearly fifty yards further, wrecking the platform as it went. All the vehicles, with the exception of one, left the rails, and as they tore along, crushing against the platform and the waggons of the goods train, they were converted literally into matchwood. The noise of the collision was heard in the town, and brought hundreds to the scene, though the nature of the disaster could not be realised till daylight. Two of the passengers who were killed were taken from a third-class carriage which had been smashed to splinters. In the compartment behind the luggage compartment were found the remains of a man so mutilated as to be unrecognisable. A passenger from London who had travelled in the same compartment as far as Carstairs and changed to one farther back, says his companion was of medium height, stout, and had a cork leg. A young man named Henry Mackenzie, sitting in this department with his sweetheart, Mary Bell, was killed, the girl escaping with injuries. They had been on a trip to Greenock and were to have been married in a short time. The next composite carriage was not so much damaged, but the succeeding vehicle, a sleeping saloon, was smashed. The other sleeping saloon was not much the worse. Following this was a composite carriage with a sleeping berth in the centre. It was greatly shattered, while the next composite carriage was torn to pieces, with the exception of the rere compartment. The trucks had been forced right on top of this carriage, throwing it on its side, and scattering the woodwork and cushions in all directions. Out of the ruins of this vehicle were taken the remains of a man who was cut into pieces. In the last compartment of it were six young men returning to London after a holiday. The side of the carriage next the goods train was dashed in upon them, but, strange to say, they escaped without injury. A lady in a first-class compartment immediately in front was saved as if by a miracle. It was stated that she had but a few moments before changed her seat to the corner next the platform. Had she been in any other posion she would have been crushed to death. As it was she was pressed down by the splintered wood, and part of a waggon was within a few inches of her head. The carriages for Manchester and Liverpool were not seriously damaged, nor were the occupants much injured. They were cut, however, by the falling glass and wood, and of course greatly shaken. Amongst the killed was the infant child of Mr Blackmore, of the Royal Academy. Mr Blackmore himself escaped, but his wife sustained such terrible injuries that she expired in the course of this morning.

Mr Wynne, of Buchanan-street, Glasgow, who was travelling to London to attend his mother's funeral, also died this morning from his injuries, the total number of deaths so far thus reaching eight.

THE FINANCES OF THE ARGENTINE REPUBLIC

We have received the following letter from the Consul-General for the Argentine Republic:—

To the Editor,

"Sir,

"I read the following paragraph in an article of the *Economist* of Saturday last, headed 'The Trade and Finance of the Argentine Republic,' viz.:—

"Notwithstanding the growth in its trade, the Republic has not yet managed to secure an equilibrium between its revenue and its expenditure For the year 1881, the receipts amounted to £4,269,000, and the expenditure to £5,679,000, there being thus a deficit of £1,407,000."

"Although it is my intention to answer on another occasion the said article in several other points, I now beg to request again of you to grant me a small space in your valuable columns to rectify the foregoing statement, which may be prejudicial to the credit of my country, especially as it was taken, it appears, from the yearly report sent to the Foreign Office by Mr Henry Nevill Dering, Secretary of her Majesty's Legation at B. Aires.

"The exact figures of the ordinary revenue, taken from the report presented by H.E. the Minister of Finance to the Hon. Congress for the year 1881, are 24,076,680.37 hard dols. (£4,815,336),* which amounts to £546,336 in excess of the figures set down by Mr Dering.

"The working of the same financial year has been as follows:—

"Authorised expenditure (ordinary and extraordinary), 32,081,811,39 hard dols. (£6,436,362 sterling), viz.:—By general Budget, 20,199,737.54 hard dols.; by extraordinary laws for special purposes, 11,882,073.86 hard dols., out of which total the sum of 28,381,223.62 hard dols. has only been expended, equal to £5,676,244, thus leaving a balance not expended, though authorised by law, of 3,700,587.77 hard dols. (£740,117 sterling), which is anything but in accordance with Mr Dering's statement that there was a deficit of £1,407,000 sterling.

"Out of the sums expended (28,481,223.62 hard dols.) a total amount of 27,602,107.69 hard dols. had been actually paid in cash, so that the outstanding balance only came to 779,115.93 hard dols., or £155,823 sterling—a figure which can hardly be seriously considered a deficit on a Budget of nearly £6,400,000 sterling, which is increasing yearly in a proportion far exceeding the expectations even of the most sanguine.

"It is worthy of notice that the Budget for the year having been only 20,199,737.54 hard dols., the actual product of the ordinary revenue amounted to 24,076,680.37 hard dols., or an increase of £775,388 sterling, a proportion which has been kept up in 1882, as the publication of statistics will shortly show.

Everything seems to justify the hopes that not only the revenue, but the general wealth of the country, will steadily continue its progressive course, and that the era of revolutions and civil strife, which has unfortunately made South America notorious, has passed for ever in the Argentine Republic, to make room for the generally earnest and uninterrupted labor which is making that country's progress unparalleled in its strides, save in the early years of the great North American Republic, a fact which is justly attracting the attention of economists and financiers of every country.

I am, Sir, &c.,
(Signed)
"*Alberto A de Guerrico*
"Consul-General for the Argentine Republic.

"London E.C., May 9, 1883."

*With the object of avoiding fractions, the exchange is calculated at five hard dols. to £1 sterling, whereas at the official rate of 4.82 hard dols. the amounts in sterling would naturally be larger. Odd dollars and cents have also been left out with the same object. —*Money Market Review.*

THE PHŒNIX PARK MURDERS AND THEIR RESULT.

Joseph Brady was hanged at Kilmainham on Whit-Monday morning. He was the first condemned for a share in the assassinations of the 6th of last May, and has been the first to meet his doom at the hands of the common hangman. But the series of executions will drag their weary length along during the whole of the present, and we know not how much of the ensuing, month. That Brady was guilty of the crime of which he was convicted admits of no reasonable doubt. That he deserved his fate every dispassionate man will admit, and even he himself, had he been disposed to speak his mind, would scarcely have denied. Whatever one may think of the crime or of the criminal, none can fail to recognise the marvellous physical courage characteristic throughout of Brady. Clearly he valued life—whether that of another or of himself—but lightly. He slew an innocent man against whom he had no personal grudge without hesitation or compunction, and in a manner so deliberate and cold-blooded as to cause a thrill of horror to all who even read a description of the deed. But if Brady was thus ready without a qualm to send Mr Burke to eternity without a moment's warning, "unhouseled, unanointed, "unanealed," he was, unless at the last moment he has belied all his antecedents, equally ready to face his own hideous fate unmoved. One mercy which was denied his victim was accorded him. He had time to make his peace with God, and there is evidence that he availed himself of it. Into such secrets we dare not pry. We can only hope that Brady has from the Almighty found that mercy which he had no right to expect at the hands of his fellowmen. The story of the assassinations in the Phœnix Park on the 6th of last May is an oft-told tale, but in its horror and the magnitude of its consequences it has a kind of perennial fascination. In many respects it stands unique in the annals of great crimes. Those concerned in it succeeded in at least one of their objects. They "made history." Not merely was the deed almost unequalled in its daring audacity and callous coldbloodedness; it was unparalleled in its effects. It not only sealed the fate of two innocent individuals; it changed that of a nation, and by its effects upon the relations between England and this country may yet influence the destinies of the entire human race. On the morning of the 6th of May, 1882, all promised well, for Mr Forster and his system of "lettres de cachet" had been dismissed. A popular Viceroy and an amiable young nobleman had been sent here to inaugurate, as all believed, a new and brighter era—an era of justice, of conciliation, of consequent peace, progress, and order. Dublin, Ireland—was "en fete." The pulse of the nation beat high with hope, and all went merry as a marriage bell. So it was in the morning and at midday. In the evening all had changed. The prospects of Ireland were struck down by the same hands that laid low Lord Frederick Cavendish and Mr Burke, and with their deaths joy gave place to mourning, and hope to despair. Who does not remember the feeling of dismay and stupor that pervaded all classes when the fatal news became known? After a while it gave way to one of intense indignation and desire that the country should be purged of the foul disgrace, and the culprits be brought to speedy justice. If they had been then discovered, they would have been lynched in the public streets by the people of Dublin; but everywhere a confident anticipation was expressed that the assassins were not Irishmen at all, and it was universally believed that after completing their bloody task they had immediately left the country—a belief which grew as each succeding month left the tragedy still shrouded in mystery. None were more vigorous in their dennuciation of the crime than those connected with the popular party—notably, Mr. Parnell and Mr. Davitt—and rightly so, for none suffered so severely. The Party of Constitutional agitation and peaceful reform had achieved the victory Its fruits were within their grasp when Carey and and his associates snatched them by their bloody deed. O'Connell used to say that the man who committed a crime gave strength to the enemy. This was most true; but it is seldom that a single crime gives such strength to the enemies of an entire people as did that of the 6th of May. The whole policy of England towards Ireland, and to a large extent the fate of Ireland, was changed by that event.—*Dublin Freeman.*

EDITOR'S TABLE

Winter will commence to-morrow, but he cast his shadow before him yesterday which was the first square cold day we have had yet. Old Sol had a mild innings in the forenoon, but was bowled out later in the day by Saint Cloud, and did not get to the wickets again. Weather prophets say we are in for a rasping winter.

Telegrams from Chile say that things "andan mal" on the other side of the Cordillera and that Pintos will resign. There is not a word about peace with Peru, which seems as far off as ever.

There was nothing fresh from Europe in the cablegram way yesterday. The London *Economist* has a capital article on the "Uneasiness on the Continent" which we will publish to-morrow. The Tripartite Alliance is considered a guarantee for peace, with a dozen of *ifs*, any one of which is sufficient for a blaze.

House-keepers and matrons implore the Lord Mayor to take a run out to South Barracas, Alsina Bridge, and environs of the Corrales. Another week of such weather and the city will be besieged, even the very "novillos" cannot get through the mud, such is the terrible state of the roads. Last night they had an interesting debate at the Municipality on the publication of 1,000 more copies of the Lord Mayor's beautiful book on the flags in the Cathedral. How much more 'apropos' is the price of meat and the shocking state of the South Barracas road. Meat will soon be as dear in this city as in London, and mutton chops will be selling at $5 m/c each, if the Municipality does not take some steps to repair the roads leading to the Corrales.

We publish in our leading column an article on the new and absorbing topic in the Plate, French claims on Brazil. We are indebted to Mr. Peter Lamas who is living in Paris, for this, the very latest from Europe. The question is now discussed at all our Clubs, in the papers, and even in Colon. The other night we heard a dispute going on about the danger to this country should France take the mouth of the Amazon. Lucky for us here that King Orelie died in a hospital in Bordeaux, or perhaps we should have the French Government claiming Nahuel-Huapi and the Bariloche pass.

Mr. Baker, our much esteemed U. S. Consul, has named Mr. Melville Hora, as agent to look up exhibits for the great Exhibition to be held at Boston on September 1st. We hold the prospectus for to-morrow. Meanwhile parties anxious to see the exhibition agent can find him at 92½ Calle Bolivar.

We salute Mr. Ovid Lagos, our highly esteemed Rosario colleague, who is in town for a few days.

We received yesterday the report of the Chief of Police for last year, but as yet have not had time to cut the leaves. Scotland Yard could not produce a better printed or got-up book, 201 pages. As a sample of police literature, the book shows a great improvement. We compliment Mr. Paz on the publication and hold it over for review.

The Directors of the Western Railway appears more anxious to consult their own than their passengers' convenience. They have moved their Station away out beyond the Plaza Once, the most break neck, mud-spattering place about the town, whilst they have moved their own offices to a beautiful central and convenient house in Calle Peru, between Victoria and Alsina. We invite all the Western Railway passengers to visit the directors at their new offices where we suppose for the purposes of inauguration, there will be a free lunch with Thompson & Co.'s great port wine for the next week.

No wonder that the price of cattle is falling and estancieros are beginning to look as poor as Bolsa brokers. The Provincial Government sucked from the camp in the whole of last month the trifle of 1,850,439 m/c.

An American gentleman who was present at the breakfast given by Oscar Wilde, of which we gave particulars in yesterday's issue, says that it was an amusing sight, and that he would be ashamed if his ten-year-old boy made as bad a speech as the Apostle of Æstheticism. Oscar is no fool, nevertheless, the "main chance" being what is uppermost in his mind. He made money in the United States, but will not make any on his second visit, as the people are sick of him and only went to see and hear him, as they did with Jumbo and Mrs. Langtry, as a curiosity. His programme for next year is North America, Australia and Heaven; and a New York colleague wittily remarks that both America and Australia would be much obliged to him if he would reverse the order of his visits, go to Heaven first—and stay there.

There is a seance at the Skating Rink to-night, in aid of the Rioja and Catamarca Famine Fund. The programme is attractive, and, no doubt, there will be a great crowd.

If the New Corporation does not look after the roads to the Corrales, the population will be left without even stale kidneys for breakfast, if the rain of the past fortnight recommences. Some families have laid in stocks of canned meats in view of such an emergency arising.

The great news of the day is that the Provincial Government is about to remove at once, bag and baggage, to the new Capital, La Plata. We offer our sincere condolence to everybody concerned, and hope they will survive the winter.

We have to thank Messrs Norton and Co., Lamport and Holt's agents, for sending us late European papers yesterday.

There was a very sad, scene on the the mole on Monday when a poor little boy of 9 years, dying of consumption, was left for two hours on the pier while some absurd formalities were gone through. By order of the doctors in Europe the poor little fellow was sent out in a sailing ship and had a long and rough voyage, without a friend to look after him; but the sailors treated the child kindly. After two hours in the bitter cold, the dying child was taken into the 'casilla,' till the relative came and took him away. How is it possible that such barbarous scenes can occur in this land. Argentines being a kind-hearted people. Red-tape! Wretched red-tape!

Number 6013 won the 10,000 pats prize in yesterday's Lottery.

Mr Baltar's little son has followed his father in death, and will be laid beside him to-day in the Recoleta. Most sincerely do we sympathise with the bereaved widow and her remaining children.

Messrs. Adolfo Bullrich & Co announce a grand book auction for the 29th and 30th of this month. The sale is for account of Quaritch, the great London book dealer. Some bargains can always be pickek up at these annual sales, as the London book weasles sleep now and then and allow good things to come out here.

Facts

The Cliché adjoining is a perfect representation of the Mandrake Plant, now so extensively recommended by the most celebrated practicioners for all diseases of the Liver.
This famous curative is largely employed in
Dr. Schenck's Mandrake PILLS
And which has made them so favourably known by the great number of cures of Liver complaint in this country during the past few months. The number of Physicians constantly using them for what are known as chronic and incurable liver troubles, attests their great value in all cases of this kind. The suffering can make no mistake in trying them, as they are purely vegetable and harmless.
A gentleman, well-known in this city, was cured of
Constipation
from which he had suffered forty years, by taking a few doses! This case has hardly a parallel in the history of medicine.

ON 'CHANGE.

June 19th, 1883

Patacon	25.00
Cedulas A	100⅝
Cedulas E	83⅝
National Bank Shares	103⅝

Cedulas continue to rule very active, but the speculation is in the hands of a few heavy operators. Spaniards have the market to themselves and do nearly all the business. Close on four hundred thousand Cedulas were sold during official hours. A few thousand Series A changed hands for cash at the usual rates of 100½ and 100⅝. Over 50,000 Series E were sold for cash at 83½ and 83⅝, whilst 138,000 were sold for to-morrow at the same rates. Operations for the end of the month embraced 140,000 at 83⅝ and 83¾. Twenty thousand only were sold for the end of next month at 83½.

The Cedula market is being very heavily beared, and the heavy amounts offered for cash and to-morrow shew that the bears can fall back on large amounts of the stock. At the rate they are selling under these conditions the delivery at the end of the month will not be at all as large as had been feared by the bulls. With the exception of a few leading speculators, the speculation in the stock is carried out by outsiders on a small scale; in fact, the sphere of operators is little less limited than that of National Bank Shares. In the absence of the Cedula King the market loses its activity and resumes its dull features.

National Bank Shares are relegated to a secondary position in the speculation at the ring. Two thousand one hundred shares were sold for the end of the month and July; 1,300 for the end of this month were sold at 103⅝-½; 800 were sold for the end of July at 104⅝ and 104½. Strange to say the market is firmer for cash than for other dates; a party applying for shares had to pay ⅛ dearer for cash than for the end of the month. The bill before Congress is exciting interest; the Deputies held a secret session to discuss the clauses and hear the terms of the arrangement made by the Board of the Bank with the Syndicate in France. The bill, it is expected, will meet with little opposition.

The money market rules pretty easy; the private banks have restricted their discounts; the Provincial Bank discounted yesterday 4½ millions currency, and the National Bank is discounting little, in view of the approach of the end of the half year. Money in the market is freely offered on stocks.

The very able article in yesterday's *Diario* is attributed to the talented pen of Don Rufino Varela. The article in question shows that the Public Debt has grown since 1876 from $F80,700,083 to $F148,098,282, not including the new City Improvement Loan. There can be no doubt the National Debt has increased very rapidly, but nearly all the money has been spent upon railways and other public works, and if the debts have grown, so also has the country grown. In 1876 we had not seven European steamers loading wheat and maize in Santa Fé ports for Europe as at present, and we repeat the assertion that taking into consideration the great resources of the Republic, this country really owes nothing, and we should like to see Mr. Varela take this view of this all-important question.

Respecting the much talked of conversion of the paper money by the Provincial Bank, we think we may say it causes uneasiness in the market. Some think that on July 1st the Bank must by law begin to convert its notes, whilst others maintain that the 1st November is the; date possibly it would suit both Bank and market to postpone this conversion, and we believe that there will be a move in the market to that effect, a petition to Congress by the commerce of the R. Plate asking for the conversion to be postponed for two years. This would at once settle this most disputed question and remove the cloud, although no bigger than a man's hand, that hangs over the market.

It was reported to-day on 'Change that several wheat cargoes from the R. Plate arrived in bad condition in the European markets. These cargoes sold to arrive, but buyers refused to accept them on account of bad condition and inferior quality.

There is very little doing in maize; the bad weather has delayed arrivals in the markets, and prices are firm. Exporters cannot enter the market at present; European orders are limited to $50 and $55 % per fanega.

Cattle brokers insist that no cows worth buying can be had at 130 % 'at corte', and we share their conviction. Good cows cannot be had under 180 % 'al corte', although they report some fresh sales down at the Divisorio and Tres Arroyos at 150 % and 140 % 'al corte'.

The *Porvenir*, of Bahia Blanca, announces the arrival down there of Mr John Samson, who was welcomed by the whole commerce of the place. Bahia Blanca is going ahead in 7 league boots, and the fine lands on the Colorado are now being stocked by Luro and others. All Bahia Blanca sides with the movement for the Saladero, and if the place was a trifle bigger, all the shares of the new company would be placed in that most rising town.

Misfortunes march in phalanxes; Mr Baltar died last week; to-day his little son expired.

The magnificent estancia of Dr O'Cantos, Los Manantiales, within a few leagues of the town of Bahia Blanca, is now offered to rent, either in small or large lots. The land is some of the best in that district.

The Committee of Congress has reported favourably on the proposed new Railway from Jujuy to Bolivia by Messrs J. A. Navarro and Don J. F. Vivot. As our trade with Bolivia is so rapidly increasing, it is possible that the scheme may be carried out.

The bids for the Proveeduria, on the Rio Negro, were opened yesterday; the contract is a very important one, and when well managed gives handsome profits. We suppose that the present firm holding the Proveeduria will continue with the contract.

The canal scheme to join the Riachuelo with the Parana is now before the Government and finds great favour, it would not cost much to carry out.

Mr. De Bruyn, so well-known in this market, where he has a legion of friends, leaves in the Maskelyne for Europe. During his stay in the R. Plate he has become an estanciero, and he leaves the country convinced of its great future and prosperity. He takes with him the best wishes of his many friends, who hope to welcome him back two years hence.

The estancieros of Chacabuco have requested the establishment of a branch of the Provincial Bank in that thriving district. The Bank should have a branch in every chief-town of a partido.

Mr. A. Eborall was welcomed on 'Change to-day; he reports all the low camps between Azul and Altamirano under water. Many estancieros and sheepfarmers have been obliged to take their stock to camps further out. Many flocks of sheep are in water and mortality is severe. Animals in the South are in poor condition.

Bullrich has two splendid Dutch milch-cows on exhibition; they will be sold soon, and we advise interested purchasers of good milch-cows to inspect same. It is a sign of the times to see such fine animals imported from Holland.

The sales at the ring during official hour were:—

Cedulas—
For cash A 21,850 at 100⅝-½-⅝
For cash E 54,600 at 83⅝-½-⅝
For June 20th E 138,000 at 83⅝-⅝-½
For June 30th E 140,000 at 83⅝-⅝-½
For July 31st E 20,000 at 83½
Sales, 374,450

National Bank Shares—
For June 30th 1,300 at 103⅝-½
For July 31st 800 at 104⅝-⅝-½
Sales, 2,100

Several sales of wool have been effected in deposit in the Once at firm rates. The arrivals from outside are very reduced.

The steamer Maskelyne will take the last of our leading wool-buyers home. Mr. Leon Bossus, connected with two of our principal export houses; Mr. Offermann, from Messrs. E. Tornquist & Co., and the leading barraquero Mr. Laplanche, from Messrs. Laplanche & Cautere. Happy voyage and speedy return.

Mr. Pless-Candler, the leading Rosario produce broker, left to-day for Rosario.

A proposal of the greatest importance has been presented to the National Government. Several banking firms of Paris propose to establish a company for the construction of railways, colonization of lands, and navigation. Some of the details of this important scheme have been published by a leading colleague, but as there are rumours we reserve all remarks until the scheme is published correct and in "extenso".

Messrs. Green & Johnson, the well-known shipbrokers, have chartered the following vessels:—

Austrian brig Soleste to load salted hides in the Uruguay, Channel f.o. at 40s and 5 o/o.
German brig Marie Stahl do do do
British brig J. H. Masters to load hay in Rosario for Rio at 2$60.

Seven square leagues of land were sold to-day at $140,000 % per league; these lands are situated ten leagues S.W. of Trenquelauquen. Buyer Mr. Muiñoz.

The Pascal will be up to-morrow.

The Orion is expected in Montevideo to-day with dates up to the 26th ult.

The share market fell during afterhours; about one thousand shares were sold and prices touched bottom at 103; the stock closed at 103¼, sellers for the end of the month. Little done in Cedulas; market closed at 83½, sellers for the end of the month and buyers for cash.

The sales at afterhours were:—
Cedulas—
For June 30th seller at 83½

Interest and amortization of above bonds will be payable during the month of July.

The lighter-men of this city held a meeting yesterday in the Bolsa to discuss a reduction in the tariff; nothing was decided, but plans have been drawn up to be submitted at a future meeting.

Messrs. Oostendorp & Co., under date Antwerp, May 18th, 1883, report as follows:—
A quiet feeling prevailed for most articles during last fortnight, but values are on the whole maintained.
Bank discount rates are unchanged here at 3½ o/o for accepted bills and 4 o/o for promissory notes; in London the official minimum was advanced on 10th inst. from 3 to 4 o/o.
Wool—
Imports, 9,400 bales River Plate.
Sales, 900 bales R. Plate
600 bales miscellaneous.
Stock, 25,400 bales B. Aires.
8,300 bales Montevideo
13,200 bales miscellaneous.
A fair enquiry has been noticed here since close of our last auction at steady rates.
Quotations for Buenos Aires invoices, averaging a 1a, are:—
F.1.80-1.85 for fine wools 35-36 o/o
F.1.55-1.60 for good wools 32-33 o/o
F.1.40 for good average wools 30 o/o
F.1.25-1.30 for good average lambs 29-30 o/o
Fair Montevideo shipments, averaging a 2a, 40 o/o yield, are worth about f.1.90-f.2.
Scoured wool stands in at about fs.4.85 for fair, fs.5 for good, fs.5.15-5.20 for fine, fs.5.25 to 5.50 for superior fine stapled Buenos Aires 1a, and fs.5 for fair Montevideo 1a (washing and all expense, excluded).
The London colonial wool sales opened on 16th inst. at prices about on a par with the average of previous series, excepting Cape and inferior Australian Merino descriptions which were somewhat weaker; coarse crossbreds are 5 to 7½ o/o lower; about 338,500 bales are available for the present auctions.
The next Havre auctions will be held on 24th and 25th May; about 3,900 bales River Plate and 600 bales miscellaneous have been declared for same.
Sheepskins—
Stock, 113 bales.
Sales, 39 bales at unchanged rates.
Buenos Aires invoices of mat. skins, ⅞ to full wool, averaging a 1a are worth f.1.65-70 for very fine quality, and f.1.45-1.55 for good average.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

Venta Particular.

Llamamos la atencion de los capitalistas del pais, sobre la gran propiedad utilizada para el dique de la Colonia, consta de treinta mil varas cuadradas sobre el mismo puerto de la Colonia con estension hasta la lengua del agua y de ahi hasta el canal como queda marcado en el plano, siendo la parte la mas profunda del puerto de la Colonia, pues basta saber que la fregata inglesa de guerra "Volage" ha estado anclado a una distancia de una cuadra y media de la costa.

Esta concesion fue hecha por el Gobierno Oriental à perpetuidad consta de una casa habitacion con oficinas y dos barracas de material, cada una de ellas tiene capacidad para tres mil fardos de lana.

Como se ve, esta es una empresa de gran porvenir, no tan solo por la concesion de la parte del canal que es profundo como tambien el puerto el mas seguro en el Rio de la Plata.

La localidad se presta para establecer depositos o molino de vapor por la cantidad de trigos que se cosechan en sus alrededores.

Al mismo tiempo hay una quinta con una area de treinta cuadras cuadradas con casa de familia, caballerizas, arboles frutales, monte y bien cercada en una posicion magnifica de cincuenta varas de altura sobre el Rio de la Plata. Por mas pormenores dirigirse al Sr. Benjamin D. Manton, casilla de Correo 832.

Se dará principio a la venta por orden de su dueño el Sr. D Diego N. Carman, por falta de salud y tener que ausentarse del pais, de todas las existencias de la cabaña "El Lago."

300 animales vacunos Durham, importados y nacidos en el pais, entre las que se encuentran las celebres vacas Niñitas premiadas con los primeros premios en las Exposiciones de la Sociedad Rural Argentina y Continental, como tambien la madre y demas familia de dichos animales que no han estado en exhibicion.

Los toros Waterloo Grand Duke y Endimion son los que estan actualmente al servicio de la cabaña; el primero importado de Inglaterra, por el Sr Downes, y el segundo remitido por el Sr Elia, por el cual se nos pago 25,000 ps., siendo uno de los animales que mas han llamado la atencion de los criadores mientras estuvo en nuestra casa y que con sobrada razon escribio el Sr Elia, "que mandaba animales en los cuales tenia la seguridad de perder dinero" probandolo el hecho de no haber repetido sus remesas.

200 ovejas y carneros Lincoln, siendo una parte de ellos importados expresamente para esta cabaña, de la del Sr Clark en Inglaterra como tambien los padres que las sirven. Estos animales seria demas recomendarlos, pues ningun criador de esta raza en el pais, ha alcanzado los precios obtenidos por esta cabaña.

EN SEGUIDA

Caballos, petizos, cerdos, un tilbury de 4 ruedas y una volanta de 6 asientos, americanos verdaderos, guarniciones, etc, etc., 1 carrito ingles, 1 carro mas, 2 carretas de bueyes, 5 maquinas de segar alfalfa, 1 id para dar vuelta al pasto de las que hay muy pocas en el pais, 1 rastrillo de caballo de acero, 2 maquinas de quebrar grano, 1 de aventar, 1 piedra de afilar, arados sobre ruedas de sanjear y simples, todos de acero, 1 fragua, vigornia, torno, banco de carpintero, piedra y todos los utiles necesarios para una herreria, y carpinteria e infinidad de objectos para el trabajo de un establecimiento de campo.

Este establecimiento solo dista una legua de San Fernando, lo cual facilita el embarque de animales para los rios o el Estado Oriental casi sin gastos y la proximidad a la ciudad facilita el trasporte de los animales por cuales quiera de los Ferro Carriles.

Siendo todas las vacas de esta cabaña mansas, pueden ser destinadas para leche o para raza.

NOTA IMPORTANTE—En la Estacion San Isidro habra carruages para conducir la concurrencia, á lo que se ruega haga su viage por los trenes que salen de Central a las 7.30, y 9.55 a.m.

El Remate se suspendera solo por lluvia el mismo dia señalado para la venta.

NOTA IMPORTANTE—Para facilitar a la concurrencia las mayores comodidades les avisamos que la Empresa del Ferro Carril a Campaña pone un tren extraordinario los dias Domingo y Lunes los que saldran de Central a las 10 a.m. cuyo tren parara en el paraje llamado Ombu, distante 10 cuadras de la cabaña. Este tren regresara de ese paraje a las 5 y 30 p.m. y el boleto de ida y vuelta solo costara $20.

Sres. Eduardo Olivera y Herms.

Deseando evitar a los Sres. Criadores la molestia de hacer un viaje inutil a la cabaña arriba mencionada, en busca de animales reproductores, les prevenimos que, como en años anteriores todos sus productos seran vendidos en Remates publicos, en nuestra casa Alsina 78 debiendo efectuarse el primero de estos el 1° de Agoste prox. con un esplendido lote de sus

A los Senores Hacendados.

Les participamos que el Jueves 20 de Setiembre, queda fijado para el remate de este año de los carneros Negrete Argentino procedentes de la cabaña "El Rosario" de los Srs. Francisco Chas e hijos.

Les recordamos que la raza nueva Negrete Argentino ha sido obtenida mediante una observacion concienzuda de treinta años sobre lo que conviene mas al pais por el tamaño, por la robuztez y por la lana cuya abundancia largo y finura no dejan nada que desear encontrando nuestras palabras su mejor comprobacion en los productos de la cabaña El Rosario, vendidos o exhibidos hasta la fecha.

Los Sres Chas procurando que los compradores ahorren gastos de cuidado etc. han fijado el espresado dia para el remate a fin de que los animales pueden ser empleados inmediatamente de adquiridos (1 de Octubre). Desde luego garantimos que los carneros que venderemos son sobresalientes, como tambien que de igual modo que en los años anteriores, sera el unico remate que los Sres. Chas daran en el presente año.

El Jueves 28 de Junio 1883
A las 2 p.m.

Estos campos estan situados en la IV Seccion de tierras Nacionales—zona que corriendo hacia el Oeste entre los fuertes Argentino y Puan, y a poco mas de 20 leaguas de Bahia Blanca, es reputada como de los mejores campos del Sud.

Los campos son de pastos abundantes, mezclados y tiernos, y el agua se encuentra con facilidad en todas partes, muchos de los lotes teniendo aguadas permanentes de riquisima agua.

Los informes sobre la calidad de este magnifico campo se encuentran en el Departamento de Ingenieros Nacionales y copias de ellas estan a la disposicion de los interesados en nuestra casa.

La situacion de estos campos no puede ser mejor; es una seccion que va a ser cruzada por varias lineas de ferro carriles cuyas concesiones deben ser despachadas por el Congreso en este año y sus arranques son el gran puerto de Bahia Blanca, llave principal de la inmensa campaña Sud, destinado a ser la California de la America del Sud.

El gran Ferro Carril del Sud, cuyos terraplenes llegan ya a Bahia Blanca que quedara abierta al trafico dentro de 4 a 5 meses, pasando a pocas leguas de Puan dejara los campos que ofrecemos en venta a un dia de distancia y puede facilmente preverse el impulso que dara a ellos asegurandoles un brillante e inmediato porvenir.

Tiene por linderos capitalistas los Srs. Cambaceres, Drysdale, Tornquist, Jaime Cibils y Buxareo, Pedro Saubidet, Saturnino Unzue y otros que a no dudarlo van a formar grandes establecimientos de campo, que forzosamente aumentaran el valor de los campos linderos.

La venta sera liberal, sin base de ningun genero y condiciones ventajosas para el pago. Una tercera pa.te al contado y el resto a uno, dos, y tres años de plazo con interes del 7 o/o anual y pagares hipotecarios.

Por planos, y permenores ocurran a nuestra casa Alsina 78.

leguas cuadradas
En lotes de
4 LEGUAS
ESPLENDIDOS CAMPOS
Sin Base.

Terminada la venta de las 44 leguas de la IV Seccion, procederemos al remate de 12 leguas kilometricas situadas en la VII Seccion fraccion C. num. 7, 8 y 13, lindando por el Sud con el lote num. 18, propiedad del General D Nicolas Levalle, al Este una gran area de cien leguas del Sr D. E. Casey.

El campo que ofrecemos en venta es de superior calidad, por toda recomendacion solo diremas, sino que aqui tuvieron sus tolderias las tribus de Pincen, pues es sabido que los indios no se establecen sino en los campos superiores.

Hay en estos terrenos buenos Montes de maderas duras, que es una gran ventaja para la formacion de poblaciones, corrales etc. y estan cruzados por dos caminos.

El ferro carril proyectado de Bahia Blanca a Mercedes cruzara estos campos por un costado. La venta se hara sin base.

Dinero de contado.

Produciendo una renta mensual de $6,000 m/c
Base de venta $660,000
El Miercoles 20 del corriente
A las 3 en punto de la tarde

Remataremos a las mas alta postura y dinero de contado, por orden terminante de su propietario.

La gran Finca arriba señalada, edificada en terreno de 47 vs de frente a la Avenida S. Lucia formando esquina a la calle de San Luis donde tiene 210 vs de frente hasta llegar a la calle Herrera sobre la cual tiene 35 vs de frente.

Las construcciones son:

Una casa de familia en la esquina haciendo cruz, con la Estacion del ferro carril de la Ensenada, 3 esquinas, compuesta de 4 piezas de tabla con cielos razos empapelados, dos piezas mas pisos de tabla, cocina, 2 letrinas, algibe dos patios embaldosados y una huerta en el fondo gran parral en el primer patio.

Esta casa hace 8 años que esta habitada por el mismo inquilino y produce 800 ps al mes.

La gran barraca con 4 piezas al frente, 2 mas de madera en el patio con techo de teja francesa, jardin y gran porton de fierro a la calle, inmenso patio con capacidad para 30 o 40 carretas con frutos, pileta para envenenar cueros, un gran galpon con paredes en cal, con techo de ripia, piso de madera de 20 vs de ancho por 140 de largo, con dos altillos en cada extremidad sobre vigas de maderas duras, prensas para enfardelar una caballeriza para diez caballos, deposito para pasto con techo de teja francesa alquilada con contrata en 4750 frente a la calle Herrera, una casa esquina, con almacen y trastienda 3 piezas mas pisos de baldosas, cocina, lugar y pozo.

Otra casita continua con 4 piezas, cocina y lugar, ambas con dos patios embaldosados, que producen 750 pesos al mes.

En seguida dos casitas, mas una con tres piezas, lugar, cocina, patios embaldosados y pozo medianero, produciendo 300 pesos mensuales.

Todo lo cual forma una renta total de 6000 pesos por mes, con alquileres, como se vé, sumamente modicos y que representa un interes seguro de 12 o/o al año sobre los 650,000 pesos que es la base fijada para la venta.

Nos parece de todo punto, por demas, enumerar, las grandes ventajas que ofre e esta propiedad, llamando unicamente la atencion de los capitalistas sobre la immediacion de ella, sobre el Puente de Barracas y Riachuelo distando de la Rivera una cuadra escasa.

Los muelles de descarga estan construidos hasta la Barraca Balcarce. Antes del fin del año, estaran terminados hasta el Puente de Barracas.

Aquella localidad está distenada á ser el gran deposito de mercaderias de la Capital y ademas las grandes areas de terreno, que unicamente se encuentran alli, seran ocupadas con breve plazo por las grandes industrias que se van levantando de dia en dia.

Pocas veces se ha ofrecido una propiedad en mejores condiciones y con las vastas dimenciones que tienen esta.

Titulos de primer orden.

El Domingo 1 de Julio 1883
A las 2 de la tarde

Procederemos, por orden terminante de sus dueños, a vender en remate publico y bajo la base arriba mencionada, en nuestro casa, calle Florida 22, segundo patio, una y media legua de campo, apropiado por la calidad de sus pastos para la cria de ganado lanar y vacuno.

Este campo dista 5 leguas del Saladillo, donde pronto llegara el tren, 8 del Pueblo de las Flores y 6 de la Estacion Colorado, del ferro carril del Sud, lindando con los Señores Goan y Jose M Pinel, Laguna Chica y Sres. Lozano y Santillan.

Cada puesto pagan por un radio de 100 cuadras de 5 a 6000 m/c por año, siendo sumamente baja la base fijada con relacion a la venta que produce y a que estos campos jamas se inundan.

Inutil creemos llamar la atencion de las personas que se dedican a la cria de ganaderia sobre la bondad de estos campos, pues pocas veces se ofrece la ocasion de encontrar tan buenos en venta.

The Colony in Gainza
Lands payable at eight years' credit without interest.

We have just concluded the sale of the 56 leagues of land we offered in Gainza at $250,000 m/c per league, payable 10 o/o or say $25,000 m/c cash, and the balance in eight yearly payment of $28,125 m/c without interest; last payment comes due in 1891; 28 purchasers of all nationalities bought these 56 leagues.

The land is noted for its goodness, and Clark's railway from Buenes Aires to Valparaiso passes near it, and will place settlers within reach of this city in one day.

The purchasers of these lands will probably double their capital in five years, although they have eight years to pay for them; because in the hands of 28 proprietors, in 5 years time we shall see all the elements of pastoral and agricultural progress firmly fixed in this colony.

We have still some 20 Leagues for sale, and we invite sheep and cattle farmers whether half-leaguers or ten-leaguers, to come to our office to 178 Calle San Martin to see the plans and study this business.

"PLOUGHS"

"PLOUGHS" "PLOUGHS"
Messrs M. Forrester & Co.
Beg to announce to the Public that they have lately introduced into this country with great success the
Celebrated Two and Three Furrow Ploughs
OF
Messrs. HOWARD
ENGLAND

These WROUGHT IRON PLOUGHS fitted with breasts and shares of steel, have been extensively used in the Provinces and are destined to supersede the light and flimsy wood implements made by the Americans.

By means of a simple hand lever the onward movement of the animals raises the plough out of work at the ends, thus saving the driver the usual hard lifting connected with ploughing.

The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.

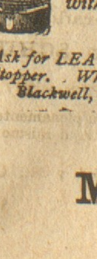

These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.

In order to procure these Ploughs orders should be sent in at once, or disappointment may be incurred.
